REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1-4 are allowable over the prior art of record for at least the reason that the prior art fails to teach or suggest a heat sink system comprising a circuit board, a heat generating electronic component mounted on the circuit board, a thermally conductive spacer having one end connected to said component at the bottom of said circuit board and another end to a thermally conductive substrate base having two opening, wherein a first opening containing at least partially a fan driving means, said fan drawing air through the first opening and blowing air out through a second opening, and a plurality of fins vertically projected from a bottom surface of said substrate base.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Streit et al (US Patent Application Publication 2005/0122682 A1) teach a heat sink system 10. Figs. 1-2, comprising a circuit board 11, heat generating electronic components 20, 21, 40-44 mounted on the circuit board, 12 having opening 13, wherein a first opening containing at least partially a fan 16 driving means, said fan drawing air through the opening 13 and blowing air over heat generating components and over a plurality of fins 30-33 vertically projected from a bottom surface of said substrate base 12. Streit et al do not teach a thermally conductive spacer having one end connected to said component at the bottom of said circuit board and another end to a thermally
